SUMMARY

Final-year B.Tech CSE student with hands-on experience building and shipping web and desktop applications using React.js, Tailwind CSS, Framer Motion, Supabase, and Node.js. Open-source contributor at GirlScript Summer of Code 2026 with 3 merged PRs. Targeting Frontend/Full-stack SDE-1 roles.

EDUCATION

B.Tech in Computer Science & Engineering (Minor: Robotics)
Mangalam College of Engineering, Ettumanoor | CGPA: 8.02

2023-2027

SKILLS

Frontend: JavaScript (ES6+), TypeScript, React.js, Next.js, HTML5, CSS3, Tailwind CSS, Framer Motion, Electron.js

Backend & APIs: Node.js, Express.js, Supabase (Auth, RLS, Postgres), REST APIs, Groq LLM API, Notion API

Tools & Design: Git, GitHub, Figma, Adobe Photoshop, VS Code

Languages: Python, C

PROJECTS

Memory Palace | github.com/aayushirajesh/memory-palace | Live Demo: <https://memorypalaceapp.vercel.app/>

React.js, Tailwind CSS, Framer Motion, Supabase

- Developed an interactive journaling web app using React.js and Framer Motion with animated door-based navigation for memory entry retrieval
- Architected per-user data isolation using Supabase RLS policies, ensuring zero cross-user data leakage across all journal records

LifePilot - AI Task Planner | github.com/aayushirajesh/LifePilot

Javascript, Node.js, Express.js, Groq LLM API, Notion API

- Built an AI productivity tool using Node.js and Groq LLM API that converts user goals into structured multi-day plans with auto-assigned priorities and deadlines
- Integrated Notion API to sync generated plans directly to a user's workspace, backed by a RESTful Express.js backend handling LLM requests, plan formatting, and data sync

Pomodoro With Miu - Desktop App | github.com/aayushirajesh/Pomodoro-With-Miu

Electron.js, HTML, CSS, JavaScript

- Built and shipped a cross-platform desktop productivity app using Electron.js with segmented work and break sessions, packaged and distributed as a Windows installer
- Designed the complete interface in Figma prior to implementation and managed the full release pipeline including versioning, build configuration, and packaging

VOLUNTEER

GirlScript Summer of Code 2026 | Remote - Open-Source Contributor

- Contributed a browser-compatible version of Pomodoro with Miu to the **100 Days 100 Web Projects** open-source repository; PR labelled level: advanced and merged after maintainer review
- Fixed mobile navigation drawer behaviour and improved weekly schedule responsiveness in **DailyForge**, resolving layout breakage across viewport sizes (2 merged PRs)

CERTIFICATIONS

- Code In Place 2025 - Stanford University
- Python for Data Science - NPTEL
- Ethical Hacking - NPTEL
