SUMMARY

Final-year B.Tech CSE (Minor: Robotics) student graduating in 2027, with experience in UI/UX design, web and desktop application development. Skilled in Figma, React.js, and backend development, with shipped applications and merged open-source contributions.

EDUCATION

- B.Tech – Computer Science & Engineering (Minor: Robotics) | Mangalam College of Engineering, Ettumanoor | KTU | 2023–2027 | CGPA 8.02 (no active backlogs)
- Higher Secondary (HSE) | Mar Thoma Higher Secondary School, Pathanamthitta | Kerala Board | 2021–2023 | 96.91%
- SSLC (Class 10) | Mar Thoma Higher Secondary School, Pathanamthitta | Kerala Board | 2019–2021 | 100%

SKILLS

Languages: Python, C, JavaScript
Frontend: HTML, CSS, React.js, Tailwind CSS, Framer Motion, Electron.js
Backend, Databases & APIs: Django, Supabase, MongoDB, Node.js, Express.js, MySQL, Groq LLM API, Notion API
Design: Figma, Framer, Wireframing, Prototyping, User Flows, Component Design, Canva, Adobe Photoshop
Tools & Platforms: Git, GitHub, VS Code, Jupyter Notebook, PyCharm, Google Workspace, Microsoft Office Suite
Core CS: OOP, DSA, DBMS, Operating Systems, Computer Networks

PROJECTS

- **Memory Palace** | React.js, Tailwind CSS, Framer Motion, Supabase| Live · GitHub

Designed the user flows in Figma and built it with React, Tailwind and Framer Motion. Memories are written as letters and kept behind animated doors in a themed palace, with Supabase Row-Level Security keeping each user's entries private. It is live with 17 registered users, and in a test with 7 people, 5 used it without any help.

- **LifePilot - AI Task Planner** | JavaScript, Node.js, Express.js, Groq LLM API, Notion API | GitHub

Built a Node.js and Express backend that sends a user's goal to the Groq AI API, returns a day-by-day plan with priorities and deadlines, and syncs it to their Notion workspace. In testing, all 10 goals returned valid plans, with the level of detail matching the goal.

- **Pomodoro With Miu - Desktop App** | Electron.js, HTML, CSS, JavaScript | GitHub

Designed the cat illustrations and five screen states in Figma, where the cat's mood and text change with work and break time, and built them as an Electron app with timed sessions. Shipped as a Windows installer (6 downloads so far), and a browser port was merged through open source (GSSoC 2026).

- **PyroX - AI-Driven Pyrolysis Management System**| Final Year Project - **In Development**

Developing a platform that collects plastic and biomass waste and turns it into fuel, with pickup coordination, a plant locator and production tracking; added carbon-savings calculation, alerts and an Eco-Credit rewards system.

PRACTICAL EXPERIENCE & TRAINING

- **GirlScript Summer of Code 2026 | Remote - Open-Source Contributor** - Contributed 3 merged PRs, including a browser version of Pomodoro With Miu and responsiveness/navigation fixes in DailyForge.
- **UI/UX Design Intern, TekLearn| 17 Dec 2024 – 23 Dec 2024** - Designed a Figma prototype for a Pomodoro app during an AI-assisted UX program, which I later built and shipped as Pomodoro With Miu.
- **Full Stack Development Trainee, TekLearn | 15 Jun 2025 – 25 Feb 2026** - Trained in JavaScript, React, Node.js and REST APIs over 8 months. Developed 10 projects, including a Mini CMS Blog and Personal Portfolio, covering frontend, backend and database.
- **Python with Django Intern, Faith Infosys | 16 Jun 2026 – 22 Jun 2026** - Built Clean City Connect, a web app for reporting waste issues and coordinating community cleanups, using Python, Django and Bootstrap.

CERTIFICATIONS

Code in Place 2025 (Stanford University) • Google AI Essentials (Google, 2026) • McKinsey.org Forward Program (McKinsey & Company) • Python for Data Science (NPTEL) • Ethical Hacking (NPTEL) • Introduction to Cybersecurity (Cisco) • Wheeled Mobile Robots (NPTEL) • Augmented Reality Workshop (IEEE) • Cybersecurity Workshop (Hexinox)

HACKATHONS & ACHIEVEMENTS

INNOVERSE 2025 – Student Startup Ideathon (Mangalam College of Engineering) – Special Mention • NASA International Space Apps Challenge 2024 – Galactic Problem Solver (Participant) • Young Innovators Programme (YIP) 8.0 & 9.0 – K-DISC, Government of Kerala (2025 & 2026) – Participant

SOFT SKILLS

Problem-Solving | Teamwork | Communication | Adaptability | Time Management | Attention to Detail | Creativity
